

HE TRIES IT AGAIN

Humphreys Goes For McBryde Bonds.

(From Wednesday's daily.)

THE RUIN OF THE PLANTATIONS as now extended to Hawaii, would, in the end, be the greatest blessing that could befall the Islands. True, it would work a great hardship for a few years and many people will stare financial ruin in the face, but it would be the means of saving the Islands to a brighter and better future, just as the civil war, which destroyed slavery, impoverished the South for a time, but later opened up the country to new riches and to a brighter and richer future than the old South ever dreamed of.—Editorial in A. S. Humphreys' newspaper, printed on Aug. 14, 1901, and in line with the sentiments personally expressed by him in an interview at New Orleans.

McBryde bonds, which for some reason have been the basis of Judge Humphreys' attacks, were highly commended in his presence yesterday upon the further hearing of the annual report of A. W. Carter, trustee of the property of Annie T. K. Parker. He had invested \$25,000 in McBryde Sugar Co. bonds, and the investment was informally disapproved by Humphreys, who claimed that the minority bondholders were insufficiently secured by the trust deeds, though the master, P. J. Russell, had reported otherwise. In order to prevent an appeal Humphreys has so far neglected to file his opinion, though four months ago he promised to make it immediately. Consequently no order has been made and the bonds are still held by the Parker trustee.

The wisdom of investment in such bonds was testified to yesterday by half a dozen prominent business men and bankers, summoned by Humphreys upon his own motion, but yet at the conclusion of the hearing, he swept aside all the testimony and again disapproved the investment. He promised again to put his decision in writing in case the trustee wished to appeal, which action may be decided upon today.

There was an astonishing unanimity of opinion among the experts as to the safety of McBryde bonds as a trust investment, and none of the witnesses called by the court had aught but favorable words for the plantation, and the superiority of the investment in such bonds over real estate mortgages. The witnesses called at yesterday's supplementary hearing were F. M. Swanzey, W. H. Baird, E. H. Wodehouse, A. W. Carter, J. O. Carter, H. E. Wally and S. C. Allen.

Trustee Carter, in answer to the court's questions, explained why he had invested in McBryde bonds. He said that he considered such bonds safer even than real estate mortgages, from the fact that real estate was more liable to depreciate in value, that titles generally were faulty and that the security offered did not always protect against a loan wanted. He said on the other hand that the sugar industry was upon a permanent basis and he considered such bonds as much better investment than mortgages on real property. He said he had even paid a premium upon the McBryde bonds, while the McBryde bonds had been obtained at 95.

S. C. Allen testified that he had invested \$75,000 in McBryde bonds and considered it an excellent investment. The other witnesses testified to practically the same matters as did Carter, all agreeing that the bonds were a safe investment.

Judge Humphreys took an entirely different view, not passing at all upon the question of sufficiency of security. He held, however, that the trust deed did not sufficiently protect against the bondholders, and that the investment of bonds was practically a delegation of authority on the part of the trustees to the McBryde company. He agreed to file a written opinion in the matter in case the trustee wished to appeal, and ordered that the \$25,000 be charged to Mr. Carter.

BEFORE JUDGE ROBINSON.
The case of Kahalelanu vs. Pereira for admeasurement of dower was concluded before Judge Robinson yesterday afternoon, and submitted on the evidence, the attorneys to file briefs within ten days.

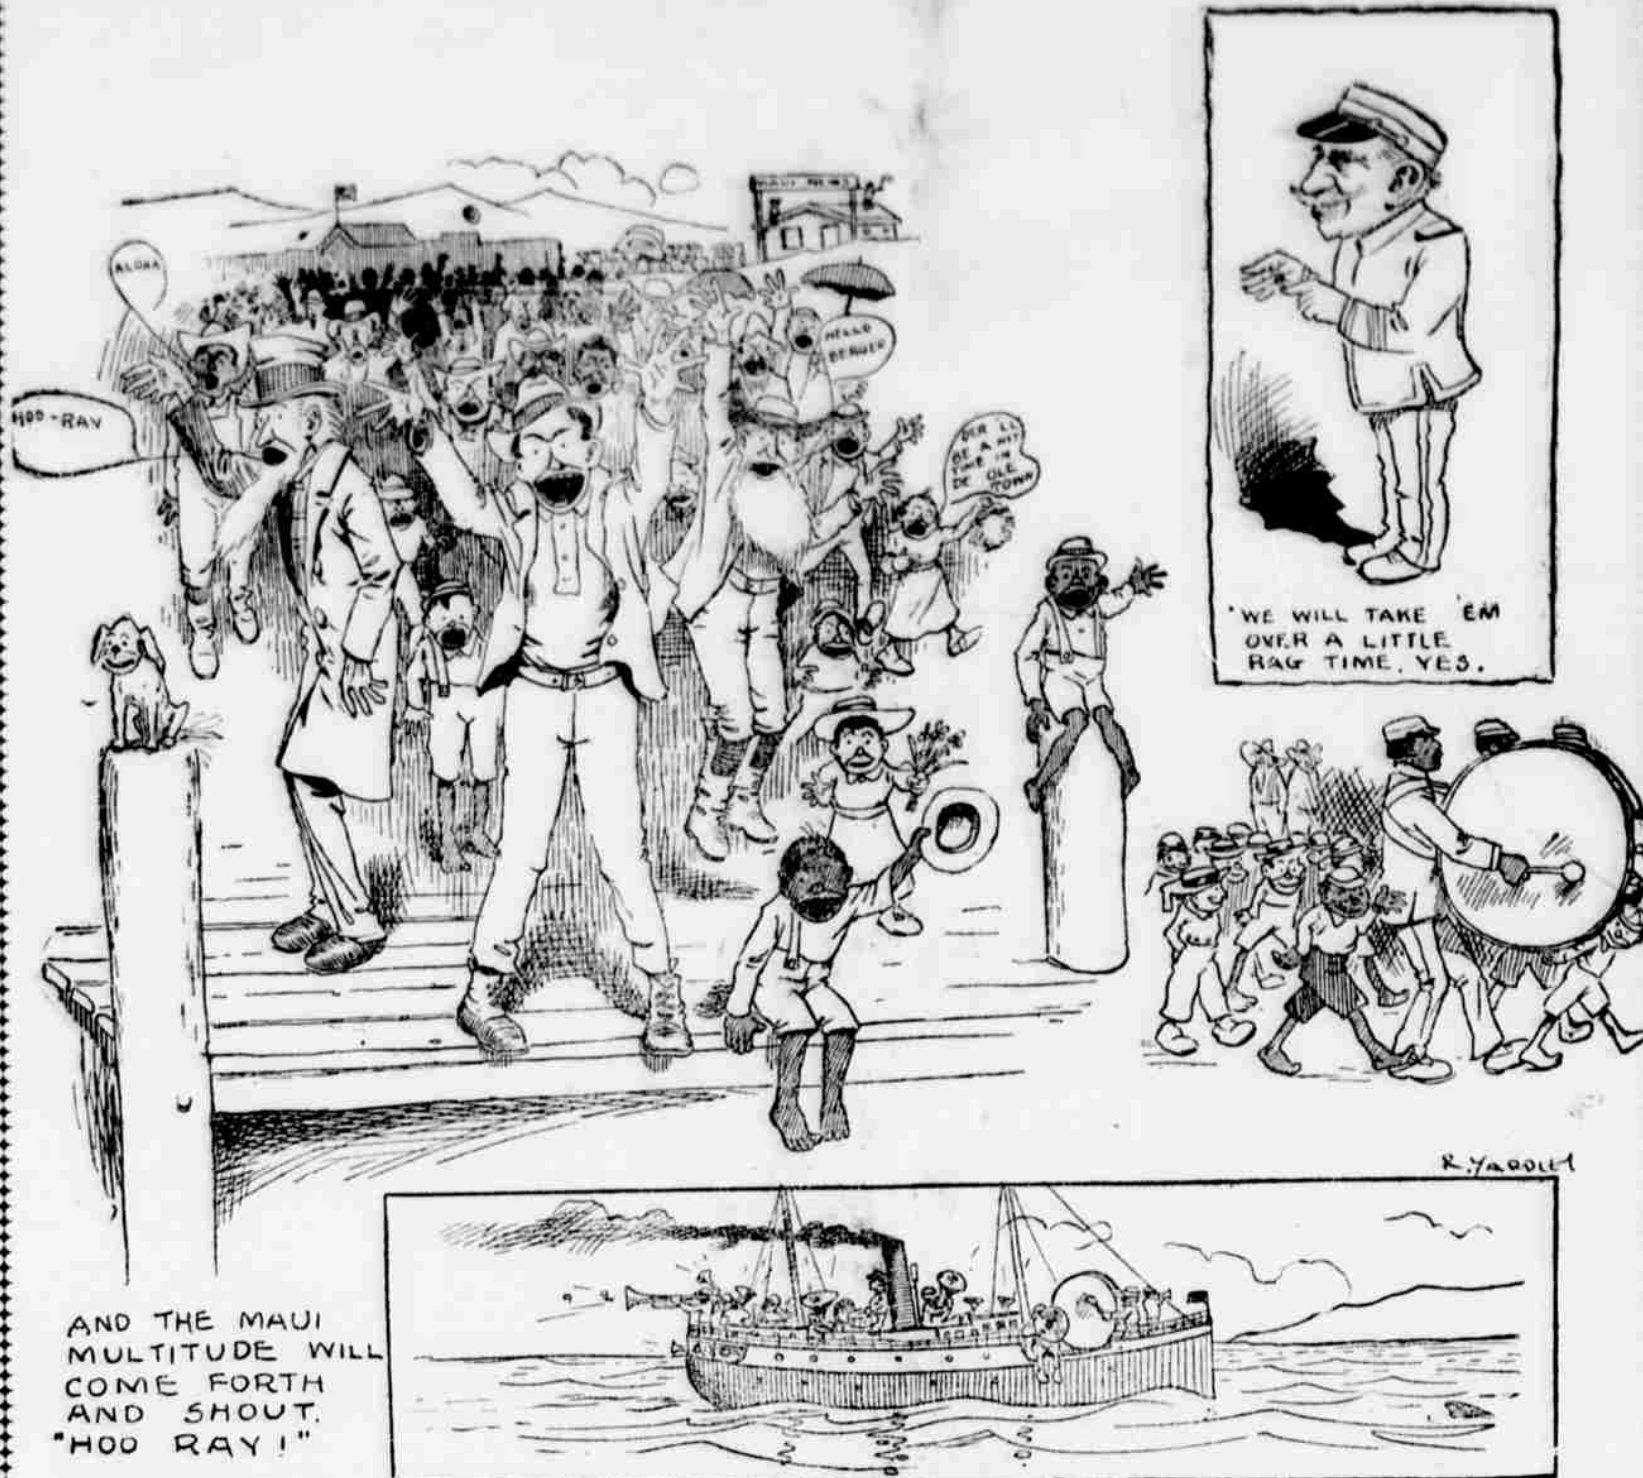

DISTRICT COURT APPEALS.
Appeal has been taken from a decision of Judge Dickey, giving judgment for plaintiff for \$87.16 in the case of T. H. Davies & Co. Ltd. vs. Nakabayashi.

An appeal has been taken also in the case of Ching Heong Mow vs. Hee Cho, wherein Judge Dickey found for defendant. Plaintiff sued to recover \$225, which he claims he paid to defendant for certain shares in the firm of Leong Yick Chan, and which defendant failed to deliver. The company claims to have repaid the money to plaintiff.

In the case of Kona Trading Co. vs. Mrs. Meleana Davis an appeal is noted from a judgment in favor of defendant. The suit is for \$120.00 for goods alleged to have been purchased by defendant, but which she denies.

DESKY ANSWERS.
An answer has been filed in the case of J. F. Colburn vs. C. S. Desky. In the accompanying affidavit the defendant alleges that the plaintiff is not the legal holder of the promissory note referred to in the complaint.

WHEN THE BAND REACHES MAUI

HARRIS ELECTED BY LARGE VOTE

The Republicans In Fourth Win.

W. W. HARRIS was chosen to fill the vacant seat in the Legislature from the Fourth district yesterday, by a majority of 267 votes in a poll of 1555. The total vote shows 881 for Harris and only 674 for his opponent, August Dreier, who, running on the Home Rule ticket, had the endorsement of the Democracy.

If there were needed any evidence of the popularity of Governor Dole, of the devotion of the people of the Fourth district to good government, of their repudiation of the extra session craze and finally of their rallying to the standard when there was fear that an element which was studiously endeavoring to humiliate the chief executive might succeed in their designs, it was furnished yesterday of such a character as to leave no doubt of the loyalty of the Waikiki end of Honolulu, at least, to the executive, and the principles of Republicanism of which he is the first exponent.

The first indication that there would be a great Republican victory came in the early hours, when the business men began to vote before going to their offices. In the First precinct the first vote was taken two minutes after the polls opened at 8 o'clock. In the Second there were waiting business men, who wished to vote as soon as the officials were ready to record their ballots, and the same conditions were apparent in the Fourth and Third. How complete the victory was is shown by the fact that the combined votes of Democrats and Home Rulers should have carried each precinct and given the place to Dreier by 278. But as the result will show the fusion candidate carried only three out of the seven precincts; his greatest majority in any precinct was 41, in the Third, and the Republicans gained in every one of the precincts, not making any sensational gains except in the Second, but polling a great majority of their registered votes all along the line.

In the First precinct the balloting began early and nearly half the votes, 114, were in the box by noon. There was a crowd about the polls nearly all day, among the first to arrive being a party of native citizens, from out Palolo way, men who had been in the ranks for the Republicans two years ago, but who said to leaders when they were asked as to their intentions, that they were for Dreier, "Aloha Aina." The orator was in attendance too, and all day speeches were being made by some of the Home Rule watchers, and once or twice there were arguments so heated that Republican watchers separated the debaters to prevent any exchange of forceful arguments. The one hundredth vote was cast at 11:17 o'clock, and at 2 p. m. there were 171, at 3 o'clock 198, and at 4 o'clock 228. It took only twenty-five minutes to count the votes, and twenty were rejected owing to faulty marking. More than half of this number were meant for Harris votes. The winning of the precinct by a clear majority of 4, when the combined vote should have given a fusion majority of 77, was most grateful to the workers of the party in the district.

The Second precinct has the largest registration in the district. It is the precinct with the largest haole citizenship, the stronghold of the friends of Governor Dole, and the scene of the hardest battle of those friends to make the endorsement of his policy substantial. The total vote cast in this precinct in 1900 was 843, and the majority of Giffillan over the combined opposition was 47. The total vote cast yesterday was 452 and the majority of Mr. Harris, in his own precinct, was 146, or a majority of 100 more than that given to his predecessor.

The voting there showed the interest of the Republican business men in the success of the Republican party, especially after there had been injected into the fight the feature of making it an endorsement of Governor Dole and his policy. Two hundred votes had been cast by noon and 375 by 4 o'clock. The noticeable feature was that the haole outnumbered the Hawaiian voters by two to one all through the day, and the small showing of Dreier was astonishing to his friends, who had counted upon a large vote for him out of the business men's ranks. Eleven votes were rejected.

The Third precinct is an admitted

They Will Ratify by Great Mass Meeting.

REPUBLICANS will celebrate their victory on Friday evening with a great gathering of the members of the party. The plans adopted at a meeting of the Fourth district committee last evening call for a meeting of representatives of the various precincts at Union square, on Friday evening when the line of march will be taken up to Emma square, where there will be a ratification of the election of Harris.

There will be a band, and the people will be asked to divide themselves into companies, so as to make a showing of the strength of the party in the various precincts. The workers of the Fifth district will be asked to participate in the celebration, and such well known Republicans as Achi, Lane, Coelbo and others will be given places in the line and upon the platform. There will be speeches by the leaders and music by the special quintet, and the evening will be made more than a mere celebration.

The meeting of the district committee was witnessed somewhat by the presence of several members of the Territorial committee. Votes of thanks were passed to Chairman Kennedy of the Territorial committee and Chairman Gear of the District committee, which brought from both responses, in which they congratulated the Republicans upon their victory. The bills of the election were all paid before the meeting closed. The committee adjourned to the call of the chair.

Floods in the West.
BUTTE, Montana, April 1.—The railroad situation is such as to cause much apprehension among the merchants of the State who fear great losses by reason of freight tied up in the blockades existing in North Dakota. Between Havre and Williston on the Great Northern the whole country is flooded and traffic on that road is practically at a standstill. No trains have arrived in Butte from the East for several days and all are reported indefinitely late. Traffic on the Northern Pacific is still at a standstill with little prospect of relief. West of Havre the tracks are clear and trains are running on schedule time.

PLANS WORK FOR HAWAII

True Gives Idea of Agricultural Bureau.

DIRECTOR JARED SMITH received a letter by the Sheridan's mail from A. C. True, director of Experiment Stations at Washington, outlining the work to be done in Hawaii, and complimenting the results already accomplished through the efforts of Mr. Smith. Director True is opposed to permanent sub-stations in other parts of the Islands, but writes that the Department is willing to co-operate with private individuals as long as the work remains in the control of the Department, and does not involve too large an expenditure of government funds.

Director True is still hopeful of securing the increased appropriation of \$15,000 for this year, and Mr. Smith is directed to submit plans for the year's work on that basis, and also on the \$12,000 basis.

Attention is directed particularly to experiments with coffee and tobacco, and the letter, which contains much information of value, is reproduced herewith in full:

United States Department of Agriculture, Office of Experiment Stations, Washington, D. C., March 27, 1902.

Mr. Jared G. Smith, Honolulu, H. T.

Dear Sir:—I have received your letter of March 7, regarding co-operative experiments in tobacco culture in the Kona district on the island of Hawaii, and with coffee on the plantation of the Louisiana brothers in the Hamakua district. I am in favor of co-operative experiments where they can be arranged for on terms suitable to our means and giving us complete control of the experimental work and results. They should of course be conducted with reference to public as well as private interests. We should be at liberty to withdraw from the work whenever in our judgment the object for which it was undertaken has been attained, and it should be clearly understood that we can not enter into contracts involving any expenditure of funds beyond the fiscal year for which our appropriations are made by Congress. It should also be understood that we have established only one experiment station in the Hawaiian Islands and that these co-operative experiments are in the nature of special outlying investigations. We should be careful not to create the impression that we are pledged either to communities or individuals to establish permanent substations. There is always danger of dividing our work up into too many pieces and not having funds enough to carry out a thorough work where. That has been the general rule where substations have been established, and as you know, I have opposed such a policy of subdivision for years. Every locality will plead that its conditions are so different from those of other localities that it needs a separate station. This perhaps would be well enough if we had unlimited funds, but with the prospects in that direction which we have in sight, we shall evidently have to carefully husband our resources to do first class work with even a fairly good amount of work should be done at Honolulu, especially as you do not think the conditions on the station reservation are favorable for such work. We may, therefore, properly restrict the work at Honolulu largely to laboratory operations and the general work connected with the preparation of publications, dissemination of information, etc. We will thus be able to hope to carry on field operations through co-operation or otherwise in a few well selected localities outside of Honolulu.

When we take up a subject like the culture of tobacco or coffee, I would prefer to treat this thoroughly, doing work simultaneously in a number of different places. The problem is to select a few lines of work and devote ourselves thoroughly to these for a term of years. In this doing we must undoubtedly have to resist appeals of all sorts to scatter our energies in various directions, but it will in the end be better for us to struggle along this line than to do superficial work and find after a time we are not getting any results of value. Consider the station as a permanent institution which is to work in the interests of Hawaiian agriculture for all time, we must not expect to solve very many problems from year to year. By working steadily, undoubtedly results of value will accumulate and people will be able as time goes on to see more and more that the station is a useful institution.

Between now and the first of July I would like to have you submit a plan for the work and expenditures of the station during the coming fiscal year. Make it first on the basis of the current appropriation—\$12,000—and then on the basis of \$15,000, which I still hope we shall get.

I do not think you should be discouraged with the outcome of your work thus far. You have done a good thing in getting the station established, buildings erected and preparations made for the work. It will of course be a trying time for you until the end of the fiscal year, due to the exhaustion of our funds, but I have no doubt you will be profitably engaged in planning future work, and it will thus be easy to push things along when money becomes available. From all I can learn the people in Hawaii are considering your work in a more favorable light, and I feel sure that their approval will increase as time goes on.

Very truly yours,
A. C. TRUE,
Director.

(Continued on Page 6.)

TALKING OF EARLY PEACE

An Important Boer Conference Now On.

PRETORIA, Monday, March 31.—President Steyn and General Delarey have been located and a meeting between them and Acting President Schalk Burger is expected to be arranged without further delay. It is reported that General Botha will also attend the conference.

Commandant Mears has sent in word that his command will abide by the decision of the Boer Government.

Commandant De Villiers, who has been operating in the Kimberley district, has sent in a flag of truce, asking for terms.

The peace movement, however, has in no way interfered with the military operations. The British are again sweeping the northwest districts of the Orange River Colony, where, it is believed, they have about a thousand of General De Wet's men within the cordon.

HEIDELBERG, Monday, March 31.—Commandant Alberts called a meeting of the Boers in his district to take place thirty-five miles east of the Springs Station, in order to discuss the proposal for a general surrender. It is said that General Hans Botha has summoned a similar meeting at Amsterdam.

A party of constabulary and native scouts was ambushed near here March 30. Six of the party were killed. The Boers eluded pursuit.

Surrenders are occurring daily in the Standerton district.

PRETORIA, April 1.—Thirty-nine British soldiers were killed and forty-five injured in a railroad wreck March 30 near Barberton, Transvaal Colony.

LONDON, April 1.—The War Office, in reporting the railroad wreck at Barberton, Transvaal Colony, merely says that it was accidental. The victims all belonged to the Hampshire regiment.

THE POLICE ARE DOING THEIR DUTY

NEW YORK, April 1.—Continued agitation over the non-enforcement of the excise laws in this city and the facility with which liquor may be purchased on Sunday, has led to what has been termed a revolt among the patrolmen of the police force. When the charge has been made that liquor was being sold with the full knowledge of the patrolmen, their defense has been that if they should report violations of the law and close saloons they invariably were transferred to less desirable posts, through the exercise of "pulls." However, the patrolmen in one district realized that they were violating their oaths for failing to do their duty and on Sunday reached an agreement to bid defiance to the old influences. Their action in reporting all violations of the excise law caused a panic among the liquor dealers.

Apparently, this was only an opening wedge, and now the police of another district have followed suit and a fresh batch of summonses has been issued from Jefferson Market Court.

Those who have been exercising "pulls" in the past are now wondering where the sudden revolt will end.

It is stated that the Commissioner of Police, Colonel Partridge, and Attorney Jerome, will give the men moral support and protection in the fulfillment of their oaths.

ATHLETES GUARD CHICAGO POLLS

CHICAGO, April 1.—Eighty of the most muscular and brawny college athletes who could be found in Chicago have been chosen by the Municipal Voters' League to act as "watchers" at the polls in the first ward today and to head off all attempts at illegal election tactics. This ward embraces the levee district of Chicago.

Football players have been most in demand for the purpose indicated and the bulk of the "watcher" company is composed of the biggest and most muscular heroes of the gridiron that could be found. These men have been chosen because they are used to rough tactics, and could offer strong resistance if force became necessary in their duties for the day. Their physique is expected to have a generally deterrent effect on the bullies of the ward.

These athletes have been drawn from Northwestern University, Northwestern University Law School, Morgan Park Academy, and from the lists of those who have recently graduated at colleges and universities.

Among the athletes who will guard the polls are Right Guard Charles Gibbons Flanagan of the University of Chicago; John E. Webb, a former tackle on the University of Chicago team and former Captain Edward Deltz of Northwestern University.

YANKEE AUTO'S FOR SOUTH AFRICA

NEW YORK, April 1.—American automobiles, motors and motor bicycles are said to be in demand by the engineer corps of the British army for use in the South African campaign. Several manufacturers in this country have been requested to send specifications and prices of vehicles and motors at once to a captain of engineers whose corps is now stationed at Pretoria.

This information came in the shape of a letter to the Automobile Club of America, from Captain R. F. Walker,

of the Royal Engineers, dated at Pretoria, January 26. It asked the club's assistance in obtaining from American manufacturers specifically the prices of light automobiles, steam and gasoline motors and motor bicycles. Captain Walker indicated that his command-in-chief will extend the use of motor vehicles in the present campaign against the Boers. Captain Walker gave as his reason for his application that he believed American road vehicles correspond more closely with those in South Africa than do those in England, and from his knowledge of American motor machines, he believes they are best suited to the work to which it is designed to put them.

The motor vehicles will be used primarily for carrying searchlights in the field, but also are to be put to tests for other military purposes.

FARMER OAK AND THE STORM.

When farmer Oak, on his way towards his humble cottage one night, struck his foot against a big toad, he knew there was trouble in the wind. When, on striking a light indoors, he observed a thin glistening streak across his table, which terminated in a large brown garden slug, he knew again that the Great Mother was warning him. And when, last of all, two black spiders dropped from the thatched roof of his cottage, to find a safer home on the floor, he sat down and meditated how the coming great thunderstorm would affect the wheat-ricks and barley stacks, and what might be saved.

There are signs which are as unmistakable in their significance as the turned thumbs of the Romans in the days of the amphitheatre. In the case of Mrs. Green, where first one symptom disappeared, after a dose or two of Seigel's Syrup, and then another, this lady knew that the Syrup was on the way to cure her as surely as she lived.

"As I suffered for about three years from most acute indigestion," she writes, "it gives me great pleasure to testify to the complete cure which a small quantity of Seigel's Curative Syrup effected in my case, after several medical men had prescribed for me in vain."

"From 1897 until about two months ago (the date of Mrs. Green's letter is December 3rd, 1900), I endured a continual agony of sleepless nights, racking headaches, tired and languid feelings and nasty choking sensations in the throat. A great deal of my time was spent in bed, as I was quite unable to get about."

Cynical men and women sometimes pronounce the query, "Is life worth living?" The fact is, many people don't know how to live. They exist merely. Like prisoners confined in a dungeon or who are given liberty conditionally upon their dragging a weight about.

Perfect health is the first necessity of a happy life. Torpid livers, constipated motions, anemic disorders, skin affections and uric acid troubles render life unbearable. The victim, whether he be farmer or prime minister, will eventually have to take to bed as did Mrs. Green in this instance.

"I had been in bed four weeks," she continues, "when a friend who is a firm believer in Seigel's Curative Syrup for all forms of dyspeptic troubles called upon me, and strongly urged me to try this remedy."

"I confess I was sceptical, but my friend insisted and gave me a bottle to commence with. I got immediate relief from this, and before the bottle was empty the distressing symptoms had nearly every one disappeared. I purchased another bottle myself, and that completed the cure. I am now in perfect health. Naturally, I consider the effect of Seigel's Syrup in my case marvellous. It changed me from an invalid and dyspeptic of three years' standing, into a healthy woman."

"I am a native of Auckland and well-known here, where I have been in business for nine years." (Mrs.) Annie Green, St. George's Hall Buildings, Great North Road, Auckland, N. Z.

Farmer Oak could foretell a thunderstorm from signs that he had been taught to read by long experience, and years of study enable me to set down here signs of a condition, which, if not cured, will bring about a collapse of your system. If any of the following symptoms are troubling you, secure a bottle of Seigel's Syrup at once, and follow the directions for taking it.

Lack of appetite, heart palpitation, pains in the chest, back, head and sides, flatulency, low and depressed spirits, nerve and neuritic pains, anæmia, pains in the kidneys, rheumatism, gout and sciatica, gravel or stone, a cutting pain between the shoulders, weak eyesight, constipation and headaches, so-called "decline," counterfeit heart disease, great mental distress. These disorders are like so many branches of a genealogical tree, and spring from the one great evil, Indigestion.

ALFRED STEAD JR., WRITES UP HAWAII

LONDON, March 31.—The Saturday Review, continuing its anti-American campaign, today publishes a long communication from Alfred Stead, son of W. T. Stead, the editor, picturing the alleged deplorable condition of Hawaii as a result of annexation to the United States. Mr. Stead said that the unvarying lament is heard from every class, whether planter, or member of the government, to the effect that Hawaii has reaped no good from annexation. The foremost advocates of annexation in 1898 are now the most bitter and outspoken in bewailing its accomplishment.

Mr. Stead says that the application of the American coastwise navigation laws has deprived the islands of the use of 271,863 tons of shipping annually thus crippling trade and raising freight rates. The wealthy inhabitants of the islands, continued Mr. Stead, when they are in a hurry to reach the Pacific coast, are frequently forced to take passage on a foreign vessel and pay a fine of \$200 in addition to their fare.

The frequent calls of transports are greatly despised as they almost always bring smallpox or some other contagion requiring quarantine, says the writer, and the exclusion of the Chinese is ruining the labor market. The tariff concessions to Cuba threaten to kill the sugar industry. America has twice prevented Hawaii from obtaining a cable. Hawaii is thus cut off from newspaper publicity,

GENERAL DELAREY THE BOER WHO CAPTURED METHUEN

which is essential to securing speedy reforms.

Commenting editorially on this communication from Mr. Stead the Saturday Review says: "Whatever evils the Hawaiians are suffering as a result of American protection, they have richly merited it as a punishment for their monstrous treatment of Liliuokalani."

STEAMPOUGH IS AT THE TRACK

The race track is getting in good shape again and yesterday most everything in the stables worked for about the first time since the rain. Nothing but slow work was done and 2:40 would have won every heat.

John Ouderkerk's brown pacer Steamplough, last year's sensation until he went wrong shortly before the races, has been taken to the track and is now in the hands of Jack Gibson. The shave-tailed wonder is looking well and is said to have all his old-time speed right with him.

The championship indoor baseball shield will shortly be put in place in the gymnasium of the Young Men's Christian Association. The following names of players on the victorious team are inscribed on the shield:

J. R. Gorman, captain; M. G. Johnston, E. M. Cheatham, W. O. Dunn, R. S. Pierson, C. M. Taylor, C. W. Girvin, J. A. Templeton and W. C. Crook.

The league baseball teams have all started practice and have been assigned regular afternoons for the use of the Makiki ground. The Males play on Monday, the Honolulu on Tuesday, and the Custom-house nine on Friday. All members of these teams are requested to turn up to practice as often as possible.

The race track is drying up nicely, and there is every prospect of good going in next Saturday's athletic contests.

The Punahou track team have been putting on finishing touches to their training at the Peninsula the last few days.

The Maile Hima athletes are doing a lot of earnest training for the field day. They go out to Kapiolani Park every afternoon in a rig and as a result of consistent practice are improving considerably in both form and actual results.

The professional tug-of-war tournament commences April 26. Eight teams have entered, including Public Works, Pacific Hardware Company, All American, "Longshoremen," Portuguese and African teams. Chas. Costa is captain of the Garbage aggregation; Captain Flint, of the All Americans, W. J. Mossman of the "Longshoremen," and Sidney Boyd of the Africans.

A platform has been erected in Aala warehouse, and lights have been put in. The platform is 100 feet long and is raised four feet from the ground. The first prize will be \$200 and the second \$50. The tournament will be conducted under the auspices of the Honolulu Athletic Club.

BILL MAY NEED DEMOCRATIC VOTES

WASHINGTON, March 31.—Although the Ways and Means Committee of the House today made a favorable report on the bill for the relief of Cuba, the beet-sugar men have not entirely given up hope. They will carry the fight to the floor of the House, and although they do not expect to win there they believe it will require Democratic votes to pass the bill. The Senate may defeat the measure.

A summing up was made this afternoon of the Republican forces lined up against the Payne bill in the House. Representative Metcalf, who is as well posted as any member on the matter, said he understood that about forty Republicans would vote against the bill, apportioned as follows: Michigan 11, California 7, Wisconsin 7, Minnesota 2, West Virginia 4, Washington 2, Maine 2, and New York, Iowa and Illinois one each. One man in Michigan is said

to have "fallen down," but on the other hand one or two recruits are expected before the final vote is cast.

There is really a hopeful feeling among certain Senators that the Cuban relief bill will be beaten. While the President's influence is as potent in the Senate as in the House, if not more so, there are Senators who declare boldly that they will not support the Administration measure for the relief of Cuba. Among those in the Republican ranks are Perkins and Bard of California, Nelson and Clapp of Minnesota, Quarles of Wisconsin, Burrows of Michigan, Hoar of Massachusetts, Foster of Washington, Mitchell and Simon of Oregon and Jones of Nevada. Others are expected to come into line.

Senator Hoar, it is said, will make a strong speech against the measure. Senator Burrows, who is leading the anti-reduction forces, expresses much confidence in the outcome.

TRAGEDY ON A RAILROAD

TOPEKA, Kan., April 1.—A special to the State Journal from St. Mary's, Kan., says:

Three persons were instantly killed and another perhaps fatally injured shortly after 1 o'clock this morning at Bond's Crossing, two miles west of Rossville, by the Union Pacific passenger train No. 3, westbound. The dead:

FRED SMITH.

EDWARD SMITH.

MISS MINNIE MAINIE.

Mrs. Fred Smith may recover, although at 9 o'clock this morning she was still unconscious and was in a delirious condition.

Mrs. Smith was married last Sunday, and Miss Minnie Mainie was to have been married next Sunday to Edward Smith, one of the men killed. The young people had been to St. Mary's to attend a Woodmen dance and were returning home when the accident occurred. The bodies of the killed were terribly mangled. Miss Mainie's head was completely severed from her body. Both the horses were instantly killed and the carriage splintered. The engineer did not see the carriage until after the engine had struck it.

Robson and Crane Again.

CHICAGO, April 1.—Robson and Crane are to be re-united after a separation of eight years. It may be only one performance, or it may be for two. One is to be held in New York and the other, if held, in Chicago, and both are for the fund raising to establish a home for indigent player-folk. Information of the proposed joint appearance of the famous comedians has been received in a telegram from Mr. Robson's manager, Daniel V. Arthur.

A Gift to Ohio.

EMPORIA, Kan., April 1.—The National Woman's Relief Corps home at Madison, Ohio, is to be turned over to the State of Ohio. A deed for this purpose has been reached. It is to be signed here by Mrs. Belle C. Harris, National Senior Vice-President, who will forward it to Mrs. Minnie M. Kyle of Chicago, the junior vice president. From her it will go in turn to each of the other National officers until it has traversed most of the Union.

A VALUABLE MEDICINE

For Coughs and Colds in Children. "I have not the slightest hesitancy in recommending Chamberlain's Cough Remedy to all who are suffering from coughs and colds," says Charles M. Cramer, Esq., a well known watch maker, of Colombo, Ceylon. "It has been some two years since the City Dispensary first called my attention to this valuable medicine, and I have repeatedly used it and it has always been beneficial. It has cured me quickly of all chest colds. It is especially effective for children and seldom takes more than one bottle to cure them of hoarseness. I have persuaded many to try this valuable medicine, and they are all as well pleased as myself over the results." For sale by all druggists and dealers. Benson, Smith & Co., Ltd., agents for Hawaii.

A KNIGHT OF HAWAII

Anecdotes of Old and New Times Here.

(Special to the Advertiser.)

EAN FIANCISCO, March 29.—Here is a peek of gossip from the News Letter and Town Talk, all about Hawaiians or those well known in the Islands.

A KNIGHT OF HAWAII.

Years ago, when good King Kalanikou ruled over the Hawaiian Islands, Mr. Henry Heyman, the San Francisco musician, went to Honolulu. Mr. Heyman's musical ability pleased the king, and he knighted him—so it was Sir Henry Heyman who came back to us in place of the plain Henry Heyman who went away.

At this point my story jumps several years. One day, not long ago, another musician, who also writes, went to a noted painter of this town, and refusing to talk, let her figure out for herself what the lines in his hand indicated. She fell down considerably in her reading, giving him credit for his musical ability. Hearing afterward who her client was, she determined that she must perfect herself on the lines that show musical ability. With that end in view she invited Mr. Josef Hoffmann, the pianist, to submit his hand for a reading.

He went, accompanied by Sir Henry Heyman, and the pianist made a close and careful study of Mr. Hoffmann's hand, then laughingly announced that she could not be deceived in a musician's hand again.

It was at this juncture that Sir Henry conceived the idea of perpetrating a joke on her. So he told her that he would like a reading. He added that he had been a benker all his life, but had some inclination toward music—in fact, thought of taking it up as a profession.

The palmist examined his hand intently, then looked up and shook her head with much decision. "No," she said, "I would advise you to stick to bank 'g. There isn't a sign in your hand that you will succeed as a musician."

Sir Henry is undecided whether the joke is on him or on the palmist—but his friends rather think he is the victim.

THEODORE WORES RETURNING.

A letter from Samoa announces the early home-coming of Theodore Wores, the artist, who has been working hard for months on south sea subjects. He spent much of his time on the Island of Savai, one of the Samoan group, which is practically unexplored, and where the inhabitants still keep up their tribal customs. Oddly enough, Marie Wells and Marie Oge, whose pictures he delighted to paint, sail today for Tahiti. Miss Oge will return on the next steamer but Miss Wells and her mother will continue their trip to Samoa and New Zealand.

CUPID'S WORK UNDER THE PALMS.

I advise all young women who are contemplating matrimony with South Sea Islanders, whole or half caste, to read Louis Becke's tales of the tropic seas. If they are capable of drawing conclusions therefrom they may be saved many unpleasant repetitions after the fatal knot is tied. Marriages with half-castes are quite the thing since Porto Rico, Hawaii and the Philippines were added to our possessions. Generally these marriages have the white blood in the bridegroom's side and in that case it is only the offspring that suffer for the mixture of races. A short time ago an Oregon man, Albert Braze, married one of the prettiest of the Filipino belles, Consuela Palma, the heiress of Judge Jose Palma, in his time a famed justice of Manila. This marriage promises to be one of the happy ones for it was a decided love match.

THE BENCH GROANS.

Judge George Gear, of the First Circuit Court of Hawaii, whose family lives here and who formerly practiced law here, is being attacked by the newspapers of Honolulu for snoring on the Bench. Counsel, litigants and jury-men complain that the Judge, who weighs about as much as does Captain Barnes, but lacks Captain Barnes' shapeliness, slumbers at the most important moments. Captain Barnes has been known to fall asleep while looking at a winning whist hand, and Colonel Kowalsky often walks down Market street sound asleep; but both are active when business calls. Judge Gear goes into the arms of Morpheus while lawyers are delivering learned opinions and jurymen waiting to be dismissed for dinner. A few days ago, after fastidiously found on his desk a Bible, open and marked at the following passage: "He giveth His beloved sleep." Judge Gear made a futile attempt to discover the culprit, with promises of a heavy punishment for contempt of court.

FREDERICK O'BRIEN.

A ROW AMONG THE METHODISTS

NEW YORK, April 1.—The New York east conference of the Methodist Episcopal Church, which will meet on Tuesday at Torrington, will try Dr. George Reed, State Librarian of Pennsylvania and President of Dickinson College, on charges preferred by Dr. Swallow, Prohibition candidate for Governor of Pennsylvania last year, says a World special from Torrington, Conn.

Dr. Reed is charged with speaking in a defamatory way of John Wanamaker, John M. Jenks, Democratic nominee for Governor in 1898, of Dr. Swallow and of Governor Stone; also with violating a provision of the Pennsylvania law compelling the Librarian to reside in Harrisburg, and with unchristian conduct in holding the position of Librarian at a salary instead of giving all his time to his appointment under the conference.

PANAMA, Colombia, April 1.—A private message received here from Bogota which has been officially confirmed, announces the death, March 19, at Villota, a few miles from Bogota, of former President Manuel San Clemente.

TAKE RIGHT STEP.

Every ordinary cold is deserving of serious attention.

A step in one direction carries the system from an ordinary cold on into grippe, pneumonia, or consumption. A step in another direction carries the system back into good health.

Nature and Scott's Emulsion work hand in hand in their effort to make your system take the right step. Nature is working all the time. Scott's Emulsion can't work unless you take it. Scott's Emulsion then makes nature work harder than ever.

If you have only a cold and wish to ensure a favorable outcome, take Scott's Emulsion.

Consolidated Soda
Works Company, Ltd.

When the Moana left Sydney there had been, up to March 23, 76 cases of bubonic plague in all. Of these 21 had died, 12 been discharged, and 43 were in the hospital. For the week ending March 23, 35 cases had been reported, of which three resulted fatally. On account of plague being in Brisbane, the Moana did not enter the harbor at that place, but transferred passengers and freight in lighters.

Dreier will never trust any more machine Republicans to deliver the goods.

Speaking of reciprocity there is many a slip between the committee room and the White House.

Delegate Wilcox, unless he comes home soon, will find the remains of the Home Rule party unrecognizable.

The next time Dreier gets any political proposals from the other side he will make the traders file a bond.

If a Senatorial candidate is needed the suggestion that Harris has won his spurs should not be overlooked.

Evidently Davis did not need to look up any law to save Dreier. The loyal voters made an appeal to the law unnecessary.

Richard Croker, if he ever hears of how easily the game was beaten, will be ashamed of the political missionary he sent us.

The Home Rule nominee naturalized just in time to find out all one man needs to know about the American game of politics.

It is one thing to report in favor of a Cuban reciprocity bill and quite another to put the measure through House and Senate.

The way the Fourth District responded to the Dole slogan is the way all the Republican districts would do if they were given a chance.

That the State Department is looking into the affairs of the Chinese consulate here is a circumstance which has in it the elements of a lively row.

Yesterday's election showed what straight Republican primaries would do for the party—but what they will never get a chance to do if the present managers have their way.

There are enough Democrats who fear the effect on taxation of another Home Rule Legislature to bring on a large Democratic bolt today from the ticket their party managers have endorsed.

The striking machinists on a Southern railroad have asked Mark Hanna to arbitrate for them. That was done because they knew the man. People who don't know him are responsible for the Hanna of the cartoons.

If Mackay can be got to run his cable between the islands it will solve the question of rapid and exact communication here as it never can be solved by any system which is affected by the ordinary caprices of the air.

A party pledged to Home Rule which tries to put these islands under the direct government of Congress, even in so intimate a matter as the local schools, ought to first apply to the Federal legislature for permission to change its name.

The prospects of getting a cable, as soon as Christmas, ought to have an appreciable effect on the values of real estate. This city may easily become another Pasadena, as a winter home of millionaires, providing a man can keep in electric touch with the news and the markets.

There is a gratifying prospect of peace in South Africa. The Boers in the field seem anxious for it and the English there and at home are not less so. The only irreconcilables are the Boers who do their fighting in Europe and on paper. There, however, have small influence on the world, Delarey, for example, regarding Kruger as the evil genius of his country.

Another assault on McRyde by Humphreys shows to what lengths this man will go in wreaking personal spite from the bench. It is well-understood that he attacks McRyde as a means of striking a fatal blow at W. A. Kinney, who was instrumental in branding him last May. To do this he disregards the expert testimony of his own witnesses. Taken with the Kona outrage and his attacks, quoted elsewhere, upon plantation interests generally, this McRyde affair marks Humphreys as utterly and culpably unfit to hold any judicial post.

THE HOME RULE VIEW.

The independent, which, in Editor Norrie's absence, is pronouncing with the Home Rulers says, about the election:

From a native Hawaiian point of view, the result is most ominous and portends impending disaster. Had our friends listened to reason instead of false stupidity, as has been pointed out heretofore, and which has entirely disgusted its own people with their stunts and capers, they might have been it or what they ought to be and should be. Notwithstanding their friends, they have been severely dealt with and sat on, besides being entirely ignored. It serves them right, and the sooner it is realized the better for all.

Somewhere in these mysterious sentences is concealed the great truth that the Home Rule party is a failure and is conscious of the fact. The career of the organization has been one succession of fatalities, success at the polls being the greatest fatality of all in that it burdened the party with the records of the Legislature and of the Delegate to Congress. Jealousies and recriminations have now arisen, the natural result of which must be to divide the native people among the great American parties, where they belong. If they join these the color line will be erased, they will have friends at court, and will get their share of permanent political benefits. At the start their best friends advised them to come into the American parties, and be like other American citizens; their worst enemies induced them to go off by themselves.

A TRIUMPH FOR THE DOLE PARTY.

The election of W. W. Harris in the Fourth District was a notable triumph of the Republican Territorial administration and PARTICULARLY OF GOVERNOR DOLE, over all their opponents, party and factional. As a Dole man Mr. Harris was picked up by the Governor's staff to illustrate for a political and another. A strong candidate was named against him and placed on a platform which stood for every unprincipled principle which the Dole remnant professed in this community. Furthermore, the Home Rulers and the Democrats were united against the Governor. Owing to the fact that the campaign had no prize at the end, the contest being over a seat in a Legislature which long ago adjusted itself and, for its aims, is not likely to ever meet again, the indifference of the business classes was counted on, capable and popular as Mr. Harris was and in his down seemed inevitable while, like a bomb from the blue, fell the "Vindex" letter in the enemy's camp. When that appeared the game of treachery was up. Vindex BROUGHT OUT THE BUSINESS MEN and they rolled up majorities that the anti-Dole triumvirate could not overcome. More than that, they did good work among the Home Rulers. In Mr. Dole's own precinct where, two years ago, Gillilan's majority was only 32, yesterday Harris was given a majority of 161. In the second precinct, where the friends of the Republican Territorial administration are most numerous, the majority for Harris this year is 146 as against a majority for Gillilan (anti-Dole) two years ago of forty-seven. It was a splendid TRIUMPH OF THE DOLE PRINCIPLES OF GOVERNMENT and will be so accepted at Washington. After that it must be considered a serious blow to the prestige and the cohesion of the Home Rulers.

It was not for this that the factional enemies of the Republican Governor demanded a nomination and toiled and milled trying to inaugurate an active campaign in an immaterial election. These men would not have alienated the Home Rule leaders with whom only lately they negotiated for a permanent alliance against the missionaries, any more than they would write themselves off a political pay-roll. Nothing was further from their thoughts than to elect a man so devoted to the principles of Governor Dole as W. W. Harris has always been. Politics to them does not mean eating crow if they can help it. The one thing that prompted the "Vindex" demand for a nomination at this time was the chance it gave these conspirators, as they thought, to prove Governor Dole's weakness before the eyes of the President and the Republican National Committee. Not one of their own crowd would accept the Fourth District nomination. They wanted a Dole man and wanted him badly. They particularly wanted one who, like Harris, had opposed city and county government and an extra session of the Legislature. After that was to be the funeral and the wake.

But the loyal Republican party ordered otherwise. The only funeral is that of the DARK LANTERN CABAL who were exposed by the flash and paralyzed by the roar of the "Vindex" bomb. The beaten conspirators are doing their best to appear cheerful today; they are even congratulating each other in public—upon the election of a man whose principles in politics, so far as Territorial issues are concerned, have always been opposed to theirs and who must consider their eleventh hour boast that he recanted for a nomination, in the light of a personal affront. But the smiles are so forced that they look like the grinning of a skull. The machine festivities always bring up in a sullen gathering behind the stairs.

On the whole, yesterday was a great day for good government in Hawaii; a great day for SANFORD B. DOLE, in whose name the men who cast the majority vote for W. W. Harris turned out.

BOER UNIFORMS.

In the matter of uniforms the Boers are doing the best they can. For a good while past their favorite hand-down clothing shops have been in the enemy's lines, and the opportunity of their women folk to make homespun garments for raiders in the field has been circumscribed by British vigilance. Imports have also fallen off. Consequently the Boer soldier is obliged, when his original supply of clothing gives out, to wear anything he can find; and as British military stores now and then fall into his hands, he helps himself to the natty garments of the King's Own.

On this account it is proposed to treat him as a spy. We feel at liberty to doubt, however, that this extreme will be reached. In the last year of the American civil war the Confederates were about as much blue as gray; and it is generally recognized that unless an enemy comes within your lines in your own uniform, to try and pass himself off as one of your people, he does not forfeit his rights as an ordinary prisoner of war by wearing your regimental clothes. No Boers are likely to be hung for wearing khaki and sun helmets outside the British lines nor are they, in turn, likely to hang a Britisher if he should be captured on the battlefield clad in the 34 coat and the denim "pants" affected by the Cape Dutch.

Views of the Peaceismist.

SAN FRANCISCO, March 29.—Coffee merchants here foresee a gloomy future for Hawaiian coffee planters, and small shipments of coffee are looked for this year from the islands. It is said that in Central America labor costs coffee planters about ten cents a day, on the gold standard basis, while in Hawaii, Chinese and Japanese laborers now demand from \$25 to \$30 a month in gold. Before annexation these same laborers were paid only from \$10 to \$17 a month.

The imports of coffee to San Francisco during 1902 will probably be about 160,000 bags. Shipments began to arrive here during February, and will keep up until the end of May. Of the Central American coffee crop about one-sixth comes to San Francisco, a smaller amount goes to New York, and two-thirds of the crop is shipped to Europe.

The coffee imports here last year were 255,947 bags; from Hawaii, 17,515 bags; and Java, 3,983 bags. Little coffee comes here from Brazil which is the great coffee-producing country. It is believed that the coffee crop of Central America this season will be about 40 per cent short, the latest statistics giving the following estimated output: Guatemala, 70 per cent of the average; Salvador, 60 per cent; Nicaragua, an average crop of very small proportions; and Costa Rica, 60 per cent of its former crop.

The firm of Otis & McAllister says the cause of the shortage is partly due to the heavy crop of last year. When the coffee trees produce heavily in one year, they fall below the average the next. Too much rain in some quarters, and not enough in others, have also affected the crop.

FREDERICK O'BRIEN.

She Converted General Grant.

CHICAGO, April 1.—Mrs. Louise Henry, one of the oldest residents of Detroit and a character whose life history has been one of remarkable interest, is dead, aged ninety-seven years. She was seized with a religious fervor when a young girl and prevailed upon her guardian to give up his hundreds of slaves. She then went to Mackinac Island, then a wilderness, and as a missionary worked and lived among the Indians. She went to Detroit in 1829. She was an intimate friend of General Grant when he was stationed there as a young officer just from West Point. It was through her efforts that Gen. Grant was converted to the Christian faith.

A general uprising is feared in Macedonia and Albania and the outlook is disquieting.

LOCAL BREVITIES.

(From Wednesday's daily.)

Seventy Japanese left for the Coast on the China.

Thomas Stack, formerly of Maui, is now superintendent of steam launches at Manila.

The tug Fearless went back into commission yesterday after a thorough overhauling.

Supt. Boyd yesterday officially accepted the Gamewell fire and police alarm system which has been completely installed.

Miss Belle Walker and Mr. F. W. Kiehn will be married this evening at the residence of the bride's mother in Nuanuan valley. It will be a quiet wedding.

The Bishop Estate transcript on appeal was forwarded to San Francisco on the China yesterday. There are 1300 pages of typewritten manuscript, making almost half a million words.

The following sugar is reported ready for shipment at Hamakua plantations: H. A. C., 12,525 bags; Diamond H., 2000 bags; H. S. Co., 3000 bags; and P. S. M., 800 bags. Total, 18,325 bags.

The exhibition of the Kilohana Art League will take place in May, for which work will be received not later than May 15. Contributors to the pictorial exhibit will thus have five weeks in which to prepare their work.

Judge Estee held court last evening to take testimony in the schooner Howe libel case. Sessions were held during the day and medical testimony being offered to prove that the two sailors suing for damages were suffering from scurvy.

Mrs. C. D. Warren, Miss Marcha Warren, Miss Rachel Warren and Master Charles Warren departed yesterday in the China, after nearly a year's residence in Hawaii at the Snow cottage at the Hawaiian Hotel. A large number of their friends were on the dock to see them off.

Acting Governor Cooper and the fire claims commission will confer today on the question of whether the government will consider the judgments of the commission final, and if so, whether the claimants will be allowed to sue. The total number of claims filed is 6748, with an aggregate of \$3,175,132.90.

The China sailed for San Francisco yesterday in the presence of a large crowd. Among the passengers from here were: W. R. Castle, P. C. Jones, wife and Miss Alice Jones, M. F. Prosser, another passenger from Honolulu, goes to Los Angeles to be married. He got quite a send-off of rice and breams from friends on the wharf.

Engineer Gere was a passenger on the Kinau yesterday. He goes to construct thirteen bridges in Hamakua and North Hilo districts. The bridges will be much more substantially built than were those washed away by the recent rains and the foundations will all be of masonry. Gere expects to be absent several weeks. The work is all being done by the government.

The 34th occurred yesterday of Mrs. Elizabeth Fitzhugh Cowan, wife of Charles A. Cowan, the well-known local lawyer's heir, at her residence on Kinau street. Deceased, who was only 25 years of age, has been ill for the past six months. The cause of death was tuberculosis. The funeral will take place at 1 p. m. today from the undertaking parlors of H. H. Williams. The interment will be at Pearl City cemetery.

J. A. M. Johnson, former manager of the Honolulu and Hawaiian Paper Company, will open his new place of business, over the Collins harness store on King street, very soon. Mr. Johnson has a wife and child, returned from a visit to the coast in the Peking. While in San Francisco he secured a number of agencies in addition to those which he held before, and will get into business at once. He will receive his samples by the steamer Hyades and will have his rooms, which will be fitted up by that time, will be filled with new things which are used by printers, stationers and in all similar lines of business.

(From Thursday's daily.)

Barrows have been begun on the third street line of the Rapid Transit Company.

Two Chinese children fell into a vat of boiling refuse on a Honolulu street Tuesday evening, and were quite badly burned.

Miss Emma Clarke, much beloved, departed in the Alameda yesterday for San Francisco, where she will take a six months' business course.

T. P. Ockena, president of the Hawaiian Exchanges, and a member of the Commercial Construction Co., is laid up with a severe attack of neuritis.

J. F. Murphy, a machinist on the steamer Abolition, was a passenger on the Alameda for San Francisco. He goes to Mare Island to be paid off.

Marston Campbell, Assistant Superintendent of Public Works, leaves for Kauai today to look into repairs of damages caused by the recent storm there.

Mrs. W. E. Taylor gives a bathing party this afternoon at the Hotel Anahulu, in honor of Miss Nichols, daughter of Right Rev. Bishop Nichols of California.

George Robinson, formerly of the Merchant's Patrol, and recently a motorman with the Rapid Transit Company, left for Vancouver on the Monna for a four months' visit.

Negotiations looking toward the removal of the Hotel street stone wall are still hanging fire. The property owners are reported to be not entirely satisfied with the terms offered by Superintendent Boyd.

The conference between the fire claims commission and Acting Gov. Cooper will be held this morning. The question of issuing certificates of award on the claims already adjudicated will be discussed.

The Agricultural Seminar will not meet Saturday evening, the meeting having been postponed to Saturday, April 19. The postponement is due to the Farmers' Institute meeting at Wahiawa next Saturday evening.

Miss Carolina Haskins, whose photographic work has attracted so much attention in Honolulu, left yesterday for the coast in the Alameda, for a short vacation. Miss Haskins will return to Honolulu about the beginning of May.

The funeral of Mrs. Elizabeth Fitzhugh Cowan, who died on Tuesday, took place yesterday afternoon at 2 o'clock from the undertaking parlors of H. H. Williams. Right Rev. Bishop Nichols of California officiated at the funeral services. The interment was at Pearl City.

Invitations are out for the wedding of Miss Gretchen E. Kopke and Mr. Albert Waterhouse, to take place April 24th, at St. Andrew's cathedral. No more popular young couple have ever been joined here by the holy bonds, and they will receive congratulations and best wishes from hosts of friends.

St. Clement's congregation is to be created a parish, according to a report made yesterday. Rev. John Usborne has resigned as rector of Honolulu, and will be appointed rector of the new parish. Bishop Nichols is to preach at St. Clement's chapel Sunday and Rev. Mr. Mackintosh will assist in the services.

The concert on Saturday night at the opera house, in which Mrs. C. B. Cooper and others will appear, is being arranged so that classes from schools can attend in a body at a discount from the regular prices. The discount has been placed at 25 per cent. The Lodge Le Progres, of which Mr. Ammie, the violinist, is a member, will be invited to attend in a body. The program will consist of classical selections.

James F. Morgan will sell fine furniture, fresh groceries, etc., at his salerooms today, commencing at 10 a. m.

Capt. Slaker, formerly stationed at Camp McKinley, has been assigned to the Seventy-third Company of Coast Artillery.

Lyle A. Dickey has petitioned in the United States Court for a fee of \$75 for legal services in the Leong Dat Kee bankruptcy case.

A fund is being raised for Mrs. Fetter, the widow of the workman who was killed while at work on the dredger Wednesday morning.

The regular weekly rehearsal of the Philharmonic Society will be held at Faunui Hall this evening at 8 o'clock. The business meeting which was postponed on account of the weather will follow the rehearsal.

A reception is to be given next Monday at the home of Mr. and Mrs. E. D. Tenney on Pensacola and Lunaillo streets, for Bishop Nichols, to allow him an opportunity to meet the children affiliated with the Episcopal Church in Hawaii.

Collector Stackable held an auction sale yesterday morning, the article sold being a silk skirt which had been seized because of undervaluation. A woman captured the prize for six dollars, hardly more than sufficient to pay the expenses of the sale.

The Molokai investigating committee is nearly ready to report, but there will hardly be a meeting now until next week. The evidence has all been transcribed and covers nearly a hundred typewritten pages. The committee is now working upon the report to be made to the Board of Health.

CERTIFICATES FOR FIRE CLAIMANTS

The Executive Council spent yesterday morning in conference with the members of the Fire Commission. It was decided to pay the awards decided upon by the commission with certificates, for which Treasurer Wright was directed to draw the form. The certificates simply make the government assume responsibility for the claim, but will not become payable until the funds are available. The amount of claims awarded by the court, it is said, already exceeds the \$1,500,000 appropriated by the Legislature, and it will be necessary, unless Congress steps in, to make a pro rata payment of all the awards. In any event the claims are payable in three annual installments, and the first will not be paid for a good many months yet.

TELEGRAPH NOTES.

Captain Strong and Lady Hope will return to New York via Suez. The bill for the protection of the President has passed the House.

A strike of ten thousand coal miners has been ordered in Pennsylvania. Santos-Dumont, the Brazilian aeronaut, will explore the peaks of Mt. Blanc.

Senator Jones was defeated by Ex-Governor Clarke for re-election in Arkansas. John W. Gates is said to be behind a syndicate attempting to buy up all the corn in the country.

Get the Most Out of Your Food

You don't and can't if your stomach is weak. A weak stomach does not digest all that is richly taken into it. It gets tired easily, and what it fails to digest is wasted.

Among the signs of a weak stomach are indigestion after eating, fits of nervous headache, and disagreeable belching.

"I have taken Hood's Sarsaparilla at different times for stomach troubles, and a run-down condition of the system, and have been greatly benefited by its use. I would not be without it in any illness. I am troubled with some chronic indigestion and Hood's Sarsaparilla is invaluable." E. H. BISHOP, W. Chicago, Ill.

Hood's Sarsaparilla and Pills

Strengthen and tone the stomach and the whole digestive system.

HONOLULU MUST GIVE M'Kinley Fund Is Waiting on Action.

All things in the matter of the McKinley Memorial committee's work wait upon the Honolulu sub-body. This was shown at the meeting yesterday afternoon. There was a small gathering of the executive committee, there being present only Acting Chairman F. A. Schaefer, C. M. Cooke, J. A. McCandless, T. C. Davies, the Rev. W. D. Westervelt and J. G. Rothwell.

When the meeting had been called to order, Mr. Schaefer presented his resignation of the chairmanship, which had been tendered to him as a result of the departure of Governor Dole. The resignation was accepted, and the request for relief from the duties was granted and the choice fell upon Acting Governor Cooper for the succession.

There was some discussion of the subscriptions and the estimates made of total amount which had been brought out up to this time were close to \$10,000. In the list for Honolulu there are now only about twenty persons who have given to the fund, and the sentiment was that there should be something definite done in this city before there was any more active campaign carried on in the country districts.

Chairman J. G. Rothwell, of the committee in charge of the collections of funds, submitted a form of letter and enclosure for sending to each person in the island who has not subscribed. There is included an envelope addressed, a postal money order application, a letter to Treasurer Cooke to accompany the donation, and finally the following letter:

Dear Sir:—It is the custom among all civilized nations to honor the memory of the illustrious dead, and it has devolved on this committee to take the initiative in securing the means for the erection of a suitable memorial to be dedicated to the memory of the late President of the United States, Wm. McKinley, a man who eminently served his country in the exalted position to which he was called by the popular vote of his countrymen, American citizens.

The form of memorial has been recommended in the spirit of public recognition ground in the district of Honolulu, as a befitting token of regretful esteem to the memory of one of America's greatest statesmen, whose sympathies and efforts were recognized to be always for the best interests of the public at large.

This committee have not yet heard from you on this subject, and desire to afford to every individual resident in Hawaii, regardless of nationality, the opportunity of being represented in so meritorious an undertaking. You are therefore invited to subscribe to this fund such amount as you may desire.

Enclosed please find subscription and money order blanks to be used in forwarding your subscription, which will have prompt acknowledgment, in the form of a McKinley Memorial Fund Certificate. The committee trust to receive your prompt and favorable response.

There followed some general discussion and the result was the passage of a motion to send the letter and the general plan to the Honolulu committee for action. There was some talk of making a definite start at the work of the recreation ground, so as to show would-be subscribers that there is something in sight for their money.

Committeeman W. D. Westervelt said that while in Hilo he found there was some talk of the use to which the cash is to be put. The general opinion seemed favorable, until some one mentioned the Kalakaua bust, and as there was a total lack of knowledge as to what had become of the bust, for which there was made a popular dollar subscription, the people seemed to shut up like clams. There was some curiosity expressed as to the use to which this money was to be put, and it was said by some of the committeemen that they had heard that the bust was now in the Bishop Museum, a place which seemed out of keeping for it. Mr. Mark Robinson, the treasurer of the fund, said yesterday afternoon that there had been subscribed something less than \$1800, which he had completed to the latter sum, all of which had been paid over to Sculptor Hutchinson for his work in the making of the bust. The bust when received here was offered to the government, with the expressed hope that it be placed in the government building.

The proffer was refused, according to Mr. Robinson's recollection, on account of a lack of funds with which to construct a suitable niche for the bust. The sculptor then finding no place for the work, had it put in the rooms of the Kilaheua Art League, where it has remained for several years. The time is said to have been about five years since the completion of the bust. Late yesterday there has been expression that the bust should be given place in the government building, and there is a probability that this will be done without great delay.

MORE TREES FOR HIGHER ALTITUDES

Director Smith of the Agricultural Experiment Station has received for distribution seeds of the catalpa tree, Japanese cedar and also hemp seed, which he began sending over the island yesterday. The seed will be distributed upon application at the Capitol building office also. The catalpa is a rapid grower, of erect habit, to a height of about thirty feet. It is hardy to frost and stands strong winds and is valuable timber. It grows best in the upper forest belt. The wood is light and strong and available for posts and firewood. The flowers are very beautiful. Both the catalpa and Japanese cedar thrive best above 2000 feet elevation.

COL. J. L. CHAMBERLAIN INSPECTS CAMP M'KINLEY

Battalion Makes Brave Show in Heavy Marching.

THE garrison and troops at the artillery post at Camp McKinley were given over to a thorough inspection yesterday morning by Lieutenant-Colonel Chamberlain, U. S. A., Inspector-General of the Department of California.

The inspecting officer arrived on Wednesday in the transport, Sheridan and arrangements were made soon after for him to commence his inspection at 9 o'clock yesterday forenoon. Major Davis, Artillery Corps, post commander, took personal command of the troops, who turned out as a battalion of four companies in heavy marching order. Their uniform and equipment consisted of blue uniforms, knapsacks, haversacks, belts, canteens, campaign hats and leggings. A brief review was had at the camp, the bugles sounding a march, after which the command was taken to the race track at Kapiolani Park.

The companies were in command of Captain Pearce, Lieut. Jones, Lieut. Davis and Lieut. Newton, respectively. The Inspector-General, surrounded by those interested in the ceremony, posted himself so that he had a splendid opportunity to watch the deployment of the troops. They passed in review before him and came to a halt in battalion formation. The officer made an inspection of each company, scrutinizing the equipment of each soldier thoroughly. As soon as each company had been inspected, it was marched off the field to the garrison camp and dismissed.

At 11:30 inspection of quarters took place, the Inspector-General passing through all the barracks and buildings used by the men. It is believed that he found everything shipshape. The men on review presented a fine appearance.

EVERYTHING IS NEARLY READY

at the club's headquarters on Alakea street.

Those present were as follows: Public Works team, C. Costa; Pacific Hardware Co., D. Kahanu; All-Americans, Captain, H. Flint; Unbleached Americans, Sydney Boyd; Portuguese, J. Machado; Longshoremen, J. G. Rothwell.

The representatives of the various teams entered in the coming tug-of-war tournament, to be held in the Aala warehouse, under the auspices of the Honolulu Athletic Club, met last night men, W. J. Mossman; Kanehau, Ed. Devauchelle.

The question of belts was discussed at length, and it was decided to adopt a three-strand belt connected to the main line by a sister hook.

The schedule of pulls will be decided upon at a meeting to be held next Tuesday evening at 5:30 p. m., at the same place, at which meeting all teams must be represented. The schedule will be decided upon by the drawing of lots.

The platform erected in Aala warehouse has been examined by most of the captains of the competing teams, and it was thought best to lengthen it ten feet, making it 110 feet long.

Much enthusiasm is being manifested among the teams, all of which are training hard, and are confident of winning.

A movement is on foot to have the winning team pull against a team selected from all the other teams, for the purpose of deciding the undisputed championship of the Hawaiian Islands. The tournament commences on the 26th inst.

GIANT FREIGHTER SOON TO ARRIVE

The American-Hawaiian steamer Hyades sailed from San Francisco on April 5 and should arrive here on April 14. She will sail again from San Francisco for Honolulu on May 14.

The new 12,000-ton steamer Alaskan was to have left San Francisco for here yesterday, and should arrive on the 18th inst. She will load here and at Kahului and Hilo for New York, taking away from the islands about 192,000 bags of sugar.

The steamship American left New York for Honolulu via San Francisco, on March 21.

The steamer Nevada, the first of the local run from San Francisco here, will be dispatched from New York on April 20 on her maiden trip and should arrive here about July 16. The Nevada will be kept on the local run, having been especially built for that particular class of trade.

Two months later the Nebraskan will follow the Nevada here. She is a sister ship of the Nevada and will, with her, maintain an eight-day schedule between San Francisco and Honolulu, the Hyades being withdrawn.

The Nevada and Nebraskan will carry mail and will undoubtedly do much to give the community a better mail service.

The Oregonian sailed from Kahului for New York last Tuesday, at 8 p. m. The Californian was due in San Francisco from New York on April 3. She will proceed from San Francisco to Seattle, sailing from there on April 20 for Honolulu.

The Oregonian sailed from New York for Honolulu twenty-one days after the bark Nuuanu, bound for the same place. The steamship was discharged and loaded at San Francisco, Honolulu and Kahului and is now on her way back to New York, while, on the other hand, the bark Nuuanu is 105 days out, and will probably not arrive for another month, the ship Helen Brewer, the last arrival from New York, having taken 142 days to make the trip.

Col. Chamberlain of the San Francisco Bulletin says:

A rumor current in army circles the last few days, to the effect that Col. J. L. Chamberlain, Inspector-General of the Department of California, had been ordered to the Philippines, was refuted today by advices from Washington. The rumor seems to have issued from some of those who are interested in having Colonel Chamberlain's report suppressed, and who would doubtless use any influence they possessed to have the author of the report sent to the other end of the world when the time comes for the publication of that important document.

The lines of division between those who wish to see the report published and those who wish it suppressed are now becoming very distinct. It is clear that the officials who have been criticized by Colonel Chamberlain would do everything in their power to keep the report from coming to light. If this report is kept buried in the secret archives of the War Department, it is possible that the whole matter, according to the old-fashioned, conservative army methods, would be hushed up. Rather than expose a scandal and expose officials that have been the favorites of the administration, there would be simply the silent transfer of officers which has already been effected, and the resumption of the old state of affairs, in which no secret of the War Department ever comes to light.

On the other hand, the young and vigorous officers are anxious that the report should be published in full, and every fact of a condemnatory nature—and it seems quite certain that there are many facts of this nature—given to the world. In this way only can the government be protected from its own officials, and in this way only can perfect honesty of administration be secured. Much depends on President Roosevelt, but as it is known that he is bold, intrepid and strong, a friend of army reform, everything points to his finding a strong hand in securing the publication of the Chamberlain report and acting upon it. Every act in regard to army administration which the President has directed so far has been in the line of breaking up the old army.

ALBATROSS FINDS A DEEP SEA VALLEY OFF MOLOKAI

TWO facts were established by the first week's work of the Albatross in these waters: that there is little good fishing to be found on the leeward sides of the islands, and that there exists between the southwest end of Molokai and the island of Lanai a submarine valley, where the line showed 500 fathoms.

While there was little of scientific interest in the work done by the Fish Commission vessel, which is again this week at work on the leeward coast of Maui, there was much experience gained and some tackle lost in its gaining. When the ship first appeared off the southern coast of Molokai, at Kaunakakai, to begin the work of finding deep sea fisheries, the Hawaiians encountered by the ship's officers told them that there would be little result of their efforts. The fishing, according to the Hawaiians, would be found best to the windward side of the island, and it was, therefore, little surprise when the dredge was drawn in repeatedly and nothing discovered of great scientific interest.

The ship worked during its first week what was an irregular triangle, the base being represented by the southern coast of Molokai and apex by the northern point of Lanai. Over the course laid, which covered this ground thoroughly, the ship moved slowly, lowering and lifting its dredges when it was thought best. Some of the dredges did not come back. There is attached to the dredging line an indicator which shows when the strain on the line becomes large. Three times, twice when the

ring of wire-pullers and secret service men, who exonerate those who can assist them to promotion, while letting the blame of any irregularity fall either on an innocent person or suppressing it altogether.

Secretary Root is evidently acting in accord with the President, as his transfer, on the receipt of the Chamberlain report, of prominent officials of the transport service proves. Major Oscar F. Long has been transferred to Washington; Ernst Emmerich, one of the clerks of the transport service, who was known to have been implicated in extravagant purchases, was transferred to Jefferson, Ind.; Captain John Barnson was suspended for several weeks, his resignation following immediately on his suspension, and Captain N. P. Batchelder, it is said, was placed in a position where he found it necessary to resign.

Any efforts on the part of the transport officials to use their influence to have Colonel Chamberlain sent to the Philippines during the appearance of his report might delay the final unraveling of the whole scheme, but it could not prevent it, and it would, no doubt, react in the end in favor of Colonel Chamberlain, and against the officials whom his work exposes. The Philippines are distant, but they are not out of the world, and Colonel Chamberlain could be summoned thence in a month's time.

As the matter stands now, Secretary Root has practically cleared the entire old administration of the transport service here, but this has been done in such a manner that the uninitiated might suspect only the ordinary army changes. But for the Chamberlain report this matter would stand, and none but those immediately implicated would know that there had been any fraud. The extravagance and waste which has added to the nation's burdens would be a secret buried in the archives of the War Department. But President Roosevelt is not the man to perpetuate a method which can only lead to corruption in the end. The coming publication of the Chamberlain report is a certainty, and it is also a certainty that President Roosevelt and Secretary Root will act in accordance with his suggestions.

large dredges were down and once when a small one was being hauled, the strain became so great that it was necessary to stop the ship, but even this was not done in time, and the three pieces of gear were lost. Another time there was found to be an immense strain on the ledge and the ship was quickly backed and filled until a circuit had been made about the taut line, and then it was discovered that there was a way to break out the dredge, but when it was raised the stout iron bar had been bent double. The bottom was largely coral or lava points during the entire time.

The valley was found suddenly, after leaving the shore of Molokai. There was a short area of shallow water, and then suddenly the sounding line began to show greater depth. Finally the deepest point was touched, 500 fathoms, after which the hill line was as abrupt almost as toward the Molokai shore. The dredge went down and down, and when it had reached the deepest point there was an immense strain on the line. It was feared by the officers that the gear had been caught by a rock or coral ledge, and there was maneuvering to loosen it, but it came up under pressure. When the dredge was clear it was found that there was still nearly a ton of mud in it, indicating that the bottom of the valley was clear mud in composition. The valley was shaped nearly like the fin of one of the modern racing yachts, the hillside toward Molokai being steeper, like the cut away stern, that to Lanai being of a sloping curve.

It is the expectation of Captain

Channing Thomas, of the Albatross, last Monday of this week will be spent at Lahaina, and another week will be spent at the work before he returns to this city. Meanwhile, if there is a perceptible difference in the tides, all the time for continuing the work along the leeward side of the islands will be abandoned and advantage taken of the fact that the weather is so good on the windward side. This course will be followed during the winter, which is to keep the ship busy all summer.

KAHULI LANDING BLOCKED BY SAND

THE steamer Ke Au Hou arrived from Kilauea at 8:30 a. m. yesterday, with 100 bags of sugar for W. G. Truett & Co. The W. G. Hall was reported at Kilauea discharging freight, and the James Makoe at Kilauea. The ship was at Kilauea last night.

The steamer Tanager was at Makawehi discharging coal. She will probably be through by Friday, and will then go to Kilauea and load about 12,000 bags of sugar.

The bark W. H. Flint was at Makawehi, still waiting to be loaded.

Sugar ready for shipment on Kahuli is as follows: W. K. 200; Mohr, 21,000; K. P., 700; K. S. Co., 2500; total, 27,000 bags.

The Ke Au Hou had a pleasant trip on the way home, with smooth seas and northeast trades.

Purser Hapal reports the landing at Kahuli blocked with sand, making it very difficult for boats to enter. The Ke Au Hou boys had to lighten the boats by carrying out some of the freight before the wharf could be approached. There was only a foot of water at the landing.

When the steamer commenced loading on Tuesday, 30 bags to a boat were taken on but the boats could not be moved. Ten bags were then taken out but that didn't work very well and the boys had to get into the water and push the boats along.

When the tide started to rise things got better, and 40 bags were taken to a boat. Unusually shallow water was found at Kilauea, which made the waves break over at the landing, despite the fact that the sea was smooth.

On Wednesday loading was resumed and the same conditions prevailed as on the previous day. The boats at times took only 10 bags. The water at the landing was very rough and the waves repeatedly washed over the boats. The sugar was covered with taraputins, however, and none was damaged.

Hundreds of Families Homeless. CHATTANOOGA, Tenn., April 1.—The flood damage in Shelbyville and Bedford counties, Tennessee, is estimated at from one and a half to two million dollars. Relief committees are doing everything possible, but there is great suffering and assistance will have to be secured. Hundreds of families are homeless, it being impossible even at this time to give the correct number. Many houses were down in the current. The only deaths reported were three negroes. The damage to Harrison is estimated at \$200,000.

NASHVILLE, Tenn., March 30.—Floods in this State did terrible damage, and caused great loss of life. There are already 23 known dead and this figure will probably be increased. The property loss is four million dollars.

ST. PAUL, Minn., March 30.—Railroad traffic in the northwest is blocked by serious floods.

PITTSBURGH, March 30.—A fierce windstorm caused large property loss in Pennsylvania.

Just Missed Assassination.

ST. PETERSBURG, April 1.—The police prefect of Moscow, M. Trepoft, had a narrow escape from assassination yesterday. While receiving visitors, a governess named Allart suddenly drew a revolver, placed its muzzle at the official's breast and pulled the trigger. The weapon, however, missed fire. In the subsequent excitement the woman tried to escape, but was arrested. It is believed that the attempt was connected with the recent student troubles.

A candy trust is projected.

SUBSEQUENT TAX NOTICE.

I hereby give notice that the taxes assessed against the property of the Estate of John A. King, deceased, for the year 1901, amounting to \$4,234.21, have not been paid.

NATHAN C. WILSHARD, Assessor and Taxation Division, Honolulu, March 25, 1902.

IN THE CIRCUIT COURT OF THE FIFTH JUDICIAL DISTRICT—THE TERRITORY OF HAWAII—AT CHAMBERLAIN—IN PROBATE.

In Re Estate of Emma Kilauea (K), deceased intestate.—To Delineate Heirship.

On reading the petition of Kilauea (K), the administrator of the estate of Emma Kilauea, deceased, residing at Lihue, Island of Kauai, wherein he prays this court to issue and publish a notice to all persons interested in the above estate to appear and prove heirship to the same at the time and place therein stated. Therefore it is hereby ordered that Thursday, the 15th day of May, A. D. 1902, at 10 o'clock a. m., be and hereby is authorized for hearing the proof of heirship of all persons concerned in the above estate, in the court room at Lihue, Island of Kauai, at which time and place all such persons concerned may appear and prove heirship to the same.

Dated Lihue, Kauai, this 31st day of March, 1902.

By order of the Court. H. D. WISHARD, Clerk.

2375—April 11-15-25.

MORTGAGEE'S NOTICE OF INTENTION TO FORECLOSE.

NOTICE IS HEREBY GIVEN THAT by virtue of a power of sale contained in that certain mortgage dated the 23d day of February, 1901, made by William Henry and Kaipo (w.), his wife, of Honolulu, Island of Oahu, Territory of Hawaii, to Charles Notley Sr., and of record in liber 221, on pages 33 to 41, the said Charles Notley Sr. intends to foreclose said mortgage for breach of the conditions in said mortgage contained, to wit, the non-payment of the interest when due.

Notice is also hereby given that all and singular the lands, tenements and hereditaments in said mortgage described, will be sold at public auction at the auction room of Will E. Fisher, on the corner of Merchant and Alakea streets, in Honolulu aforesaid, on Saturday, the 23d day of March, 1902, at 12 o'clock noon of that day.

The property covered by said mortgage is all that certain piece or parcel of land situate on a lane running off the northeast side of Vineyard street, at Kaulauea, in said Honolulu, and bounded and described as follows: E. homokaa ana ma ke kihi Hik. o Kela he 149-5-12 Kap. ma ke kihi Hema ma o ka Kamakau alina a e holo ana Hema 57-30 Kom. 108 Kap. ma ka Kaulauea.

Ak. 57 Kom. 85 Kap. ma Kamakela. Ak. 50-53 Hik. 136 Kap. ma Kamakela.

Hem. 37 Hik. 91 Kap. ma hiki 1 hoomakela. He 24-100 Eka.

Being a portion of apans 1 of Royal Patent 2101, Land Commission Award 394, to Nahe, and the same premises that were conveyed to said mortgagors by the members of the board of trustees of the Protestant Church of Kaulauea by deed dated July 27, 1893, of record in liber 155, folios 59-60.

Terms—Cash, United States gold coin. Deeds at the expense of purchaser.

Dated Honolulu, February 13, 1902.

CHARLES NOTLEY SR.

For further particulars, inquire of Cecil Brown.

POSTPONEMENT.

I am requested by the mortgagee to state that the sale of the above described property is hereby postponed until

SATURDAY, APRIL 12, 1902,

at 12 o'clock noon, at my salesrooms.

WILL E. FISHER, Auctioneer.

2372 31P

Shipping Notes

The steamer Tampico is at Makawili discharging coal.
 The bark W. B. Flint is at Makawili waiting to discharge.
 There are 44,142 bags of sugar ready for shipment on Kauai.
 The Inter-Island Company's wharf office has been cleaned.
 The S. S. Aorangi is due from Vancouver and Victoria tomorrow.
 The bark Louisiana is discharging coal at the Pacific Mail wharf.
 The ship Edward Sewall is being furnished at the Railway wharf.
 The barkline Mary Wickham is discharging coal at the Channel wharf.
 No more transports will sail for New York from Manila via the Suez canal.
 The schooner Nokomis finished discharging at Sorenson's wharf yesterday.

The steamer Mikahala arrived from Koloa yesterday morning with 2750 bags of sugar.

It is rumored that W. O. Smith may succeed John Ena as president of the Inter-Island Company.

The workers on the dredger are taking up a collection for the wife and family of the late Otto Petter.

The schooner Charles Levi Woodbury recently sailed from Hilo to Honolulu in about 20 hours, a very good run.

Murston Campbell leaves for Kauai today to look into the damage done to the roads and bridges by the recent storms.

The Galle goes to Manila on her present trip and is said to be overcrowded with passengers. The Hongkong Maru and China are also said to be booked to their capacity.

The fast sailing schooner Alice Kimball, owned by the American Shipping Co., Ltd., arrived from Hilo yesterday morning making the run in less than 23 hours, bringing a full cargo of oil, wood, consigned to W. H. Hardy, Honolulu.

The American schooner Alice Cooke, Capt. Penhallow, sailed for the Sound yesterday morning in ballast. The schooner has been in port since March 21, when she arrived from Port Gamble with a cargo of lumber.

The American bark Louisiana, Captain Halcrow, arrived early yesterday morning from Newcastle, after a trip of 63 days. She was sighted about 5 p. m. on Tuesday. Her cargo consisted of coal. The Louisiana was formerly a ship, but has recently been converted into a bark.

The steamer Noeua got in yesterday morning from Hanakua ports. She reported very rough weather along the Hanakua coast. Her cargo consisted of 2500 bags of sugar. The Mauna Loa was at Honolulu on Sunday and the Kauai at Hanakua, discharging lumber.

Ka Hou Laid Up.

The fast and commodious liner New Era, Captain Mosher, of the Inter-Island fleet, will be detained in port for a week to enable her to be overhauled and some repairs made. The old smokestack, which has practically exhausted its sphere of usefulness, is to be replaced by a brand new one, warranted not to block up with smoke when the steamer is "pushed to it." A new 25-inch mast will also be put in, which will be the largest stick in any of the company's boats. When the Ka Hou, under the New Era, gets a-going again, Captain Mosher should be able to add some more island records to those which already grace his cabin.

Tampico's Movements

The Globe Navigation Company's steamer Tampico goes from Elele to Kahului to complete her cargo next Tuesday, and will sail for San Francisco and Seattle on the 15th or 18th inst. J. W. Oles, manager of the Globe Navigation Company, and wife, left for Seattle via Victoria, on the Mauna on Wednesday. They have been spending several weeks in Honolulu.

Sir Andrew Clarke, agent general for Victoria, Australia, died in London.

SOCIETY'S GREETING TO THE PRINCESS

ONE THING of the splendor of the visit here to Honolulu, which was the first time a princess of the Hawaiian royal family had been seen in Honolulu, was the reception given last evening at the Campbell mansion in Ewa street, by Col. and Mrs. Samuel Parker, in honor of Princess Kaiulani and her entourage. More than 1000 guests passed through the portals of the mansion and into the minds of the people, from the moment the princess and her entourage were seen in Honolulu.

When the guests approached the mansion they discovered fountains of electric lights, alternately red, white and blue, strung from the eaves to the topmost branches of a great cypress tree, forming a tent-like array of illumination. Under this glow the guests were hidden welcome to the mansion by Edward Lilikani, and were ushered through the main entrance, where they were divided by the folds of two splendid silk Hawaiian flags, by J. O. Carter, Jr., Robert Shingler, Cushman Carter, J. Tarn McGrew, Dr. M. K. Grossman, Mana Widemann and Frank Armstrong.

Through the hallway into the drawing room the guests were conducted, where Col. and Mrs. Samuel Parker stood at the head of the receiving party, which included Prince and Princess Kaiulani, Miss Alice Campbell, Prince and Princess Kaiulani, and Admiral George Beckley. The party stood before an alcove in which was a statue of Kamehameha, surrounded with flowers, potted palms and brilliant lights. Nearby stood a tall alabaster vase filled with red lilies. At the outer end of the line the piano was heaped with white and the other of black feathers.

The ladies in the line were beautifully attired and the men were the decorations which were bestowed upon them by King Kalakaua and Queen Liliuokalani. Prince David and Prince Kapu were the badges of the Siamese Order and the Star of Oceania, and the Order of Kalakaua. Col. Parker wore the order of the Kamehameha, and with red carnations and

WOSES SAMOAN PICTURES SHOWN WITH HAWAIIAN

THE LEI MAKER.

LINED against two walls in the mullin room of the building, canvases of Theodore Wores, representing the work which he has done in this country, in Samoa and Japan, were shown for the first time yesterday afternoon at the Pacific Hardware store. There was much that has been seen only by the intimates of the artist, and for the very first time the arrangement for light is such that the pictures appear as their creator would have them.

There is more than usual interest given to the display owing to the circumstances which permitted the artist to catch his tropical palette first here, and then throw him in the Samoan field, full of enthusiasm and ready to take up his work with the added experience with types so closely allied. Few of the more ambitious things which are on the line have been seen, and they attracted much attention from those who were privileged to have an early glimpse of the paintings. The first point which will appeal to the visitor is the brilliancy of the colors, which is displayed in the pictures on both sides of the room, for while one is practically that of the Samoan work, the other is almost as largely filled with Hawaiian views.

For precedence in coloring and interest as well, will stand the two type pictures. The Hawaiian is "A Lei Maker," representing a girl making an ilima lei, the bright yellow of the flower showing against her red cheeks; the Samoan is "Gathering Cocoa, Vailina," showing a young girl, her reddish hair set out by a bright red flower which is stuck above one ear, her red lava-lava contrasting with her shining bronze

brown skin, the foliage and fruit of the tree furnishing the needed contrasts to make the work at once striking and effective. The two give a new for the general island work of the artist, all others of his pictures partaking somewhat of the same feeling. The "Lei Maker" will be a most striking piece in the eyes of those who know not Hawaii. The face is one of the very best that could have been selected by the artist for his composition. The girl is young, has the bright, care-free eyes and lips of the Hawaiian, shows none of the grossness which sometimes creeps into the type faces, and while there might be some criticism of the pose, it is one full of grace and leaves nothing to be desired in the portrayal of the picturesque features of Hawaii.

The feeling shown in the "Gathering Cocoa" is remarkable. There is in the handling of the tropical lights, the warmth of coloring, a something which is seen in the treatment of no other subject to which the artist's brush has been lent. The tints of flesh, the lights upon high colors are masterly, and the result is a composition which should be one of the successes of the exhibition.

In striking contrast to the two type pictures are others which show sides of Hawaiian and Samoan scenery, and at the same time display a remarkable technique. Moonlight at Waikiki shows the familiar scene of dominant Diamond Head, the glowing of lights along the beach and the breaking of a low surf along the foreground shore. The masses of color are impressively done. The Head impressively standing out in the moonlight which is suggested, not even in a mass of clouds, streaked with the lava brown, and the shadows along the shore are black and strikingly heavy. Altogether there is in the scene that semi-brightness on high

lights and impenetrable shadow, which never when the tapers make a shine the atmosphere of too long contemplation of the view.

From the balcony of the Crago building, as is the scene from the Lei Maker, is the Bathing Pool at Vailina, the waterfall behind it and a single figure in the half distance. There is an interesting study in the atmosphere of the picture, for the lights are as cool as in the upper levels of western mountains. The greens are bright and distinctly can be followed lines which would seem to melt away in the soft lights of the plains of the island. The deep forest, the gulch, all make the place one where the atmosphere is as of another than a tropical isle.

From such keynotes there is evolved a chorus of coloring and portraiture. Of the Hawaiian picturing the boy cat-fish and poi, the matmaker, and the fisherman are excellent things, true to type and of really intense coloring. The poinciana and crotons, showing bits from Aiea and the High School collections, are indicative of the perfection of the grasp of the colors in the flowers. The Mat Maker of Savali, the fish and the Samoan Belle, are just as finely drawn and colored, themes from the south. The Japan collection is excellent, some of the best having been exhibited here. There are several portraits, one of Prof. W. D. Alexander being beyond criticism in drawing and tint, a speaking likeness. Other portraits show a similar command of the coloring and a happy posing.

NOT WANTED AS ADMINISTRATOR

A petition was filed yesterday asking the removal of Representative John K. Prendergast from another estate of which he is the administrator. Louis Pearson is the petitioner, and he does not like the way the Honorable Prendergast has been managing the estate of his wife, Mary K. Pearson.

In the petition it is alleged that Mary K. Pearson died April 30, 1898, leaving no issue or heirs excepting her husband. That on October 10, 1898, John K. Prendergast was appointed by Judge Perry as administrator. The estate consists of a lot on King street yielding a semi-annual rental of \$60, payable in January and July of each year, which rents the administrator has collected, with the consent of petitioner, in 1899, 1900 and 1901, and "with out such consent and over the protest of petitioner in January, 1902."

All the debts of the estate have been paid excepting a note of \$405, owing to the Bishop Estate.

The petition alleges "that said administrator, for two years past, has had in his hands over \$700 belonging to said estate with which he could have materially reduced said mortgage debt, but he has refused and neglected so to do, notwithstanding the order of this court, to the effect that said administrator pay all money in his hands to the said estate of B. P. Bishop on account of the said debt."

"That said administrator did not pay the interest on said note, which was due in January last past, but the same was paid by petitioner, out of his private funds, when it was nineteen days overdue."

"That it is for the best interests of said estate that the said John K. Prendergast be removed from his office as administrator thereof, and that a suitable person be appointed in his stead."

"That said administrator be ordered to account for all money of said estate in his hands and to pay the amount thereof into court."

"That said administrator be removed from his said office and a suitable person appointed in his stead."

"That petitioner may have such other and further relief as to the court shall seem meet in the premises."

Judge Robinson has set the matter for hearing on Monday, April 21st.

COURT NOTES.

E. L. Hoogs, administrator of the estate of Thomas Krouse, deceased, has asked for an order to sell the furniture and lease the Arlington Annex Hotel, the value of which he places at \$1200. He says that the income from the property is at present less than the expenses.

John Ena asks leave to resign as guardian of the estate of Carl Julius Schaefer, a minor, and requests that J. F. A. Schaefer be appointed in his place. The annual accounts are submitted, showing receipts of \$1624.94 and expenditures of \$4322.37, leaving a balance of \$362.57.

Manuahi has asked to be appointed administrator of the estate of Pila Manuahi.

A demurrer was filed yesterday in the case of Albert K. Nawahi vs. Hakalau Plantation Co., alleging that the court has no jurisdiction, and that the facts stated are not sufficient to constitute a cause of action.

WASHINGTON, March 25.—The Comptroller of the Currency has written to the president of the First National Bank of Hawaii at Honolulu, asking for the list and names of the directors elected at the regular meeting in January, which, it is understood, the Comptroller holds to have been the legal meeting of the stockholders, making unnecessary the second meeting, the call for which was afterwards rescinded.

ST. PETERSBURG, April 1.—While the Mignor regiment was parading on the barracks square at Kieff yesterday Captain Sofronoff shot and killed Lieut. Grodzki, for maligning the former's family.

Ernest Lieber, Centrist leader in the German Reichstag, is dead.
